

MASTER M

THE SOUND — OF — MY LIFE

PERCUSSION LIVE EXPERIENCE

LIVE PERCUSSION · AFRO HOUSE · ORGANIC
HOUSE · HOUSE · TECH HOUSE
Geneva - Switzerland - International

Master M, whose real name is **Mariano Reale**, is a Swiss live percussionist based in Geneva since 1995. For nearly three decades, he has developed a unique signature at the crossroads of organic percussion and electronic music.

From the Swiss club scene to international collaborations, **Master M** has notably worked with **Deetron** on **Body Language**, released on the prestigious Belgian label **Music Man Records**, and contributed percussion to **Greatest Hits** with **Los Refrescos**, **Dandy Jack** and **Argenis Brito**, released on the New York-based label **Jigit**.

Co-founder of **Slim Records** with **Skail Master M** and a member of **The Kompozit** project, he has also developed his career across production, performance and musical creation.

Today, **Master M** operates at the heart of the **Afro House**, **Organic House** and **House** scenes. Alongside **James Deron**, he is developing **ORA**, a new project conceived as a bridge between Geneva and electronic scenes around the world.

At the same time, new productions are currently in preparation with **Mr. Maui**, **DJ Lio**, **Hervé Solar** and **Rimbu**.

More than thirty years after his beginnings, the philosophy remains unchanged: to listen to the music, feel the audience and step in at the right moment.

On stage, **Master M** does not simply accompany a DJ; he brings a live presence, visual energy and that element of unpredictability that only live performance can offer.

Master M brings live percussion to the heart of **electronic music**, creating a genuine interaction between artists and the **audience**.

His playing blends **percussion**, **club energy** and **improvisation** to bring a new **live dimension** and intensify the **audience experience**.

More than musical accompaniment, his performance brings real **live power** to the set. His energy amplifies the track's dynamics, intensifies the **audience's energy** and creates an immediately perceptible **stage presence**. Fully immersed in the music, **Master M** performs in a state of concentration and trance, carried by the rhythm and completely connected to the moment.

Accustomed to **clubs**, **festivals**, **private events** and **international productions**, **Master M** adapts to each artist's style and shapes his intervention according to the energy of the moment.
